

Compliance action taken for childcare provision

EY350543/ 125664

Date published: 26/08/2010

Summary of outcome

On the 8 April 2010 we received information that raised concerns about the registration, which may impact on the care provided to children.

We issued with them a number of actions to improve.

Other matters

We carried out an unannounced monitoring visit to the provider and found that they had met some of the actions raised but some were still outstanding so further monitoring visits were put in place to check the providers progress. A further monitoring took place on the 13 August 2010 and all actions were met.

Action taken

Following our investigations the provider has met the actions from the monitoring visits. However, they did not inform us that the manager had left and that another person was taking on that role. This is an offence therefore we issued a warning letter.

The provider remains registered with Ofsted.

Publication of compliance action

We aim to ensure that the welfare of children and young people is protected in the services we regulate. The Childcare Act 2006 and accompanying regulations set out our responsibilities to regulate childminders and childcare providers. This includes the enforcement powers we have in relation to those registered providers who do not comply with the requirements for registration.

We publish details of any actions we take, or the childminder or childcare provider takes to bring about compliance with requirements on our website for a period of five years commencing on the date we complete our investigation.

For further information please read [Ofsted's Enforcement Policy](#).
