

Compliance action taken for childcare provision

EY331137/ 129125

Date published: 10/06/2010

Summary of outcome

On 3 June 2010, we received information that raised concerns about the registration, which may impact on the care provided to children. We received this information from a notification from the provider. We carried out an announced visit to the premises and the provider identified that a gate was not securely locked on one occasion. The provider took action to rectify this by putting more robust security measures in place and updating the risk assessment. This is in relation to the Early Years Foundation Stage General Welfare Requirements for Safeguarding and promoting children's welfare; and Suitable Premises, environment and equipment. We are satisfied with the action taken by the provider. The provider remains registered with Ofsted.

Publication of compliance action

We aim to ensure that the welfare of children and young people is protected in the services we regulate. The Childcare Act 2006 and accompanying regulations set out our responsibilities to regulate childminders and childcare providers. This includes the enforcement powers we have in relation to those registered providers who do not comply with the requirements for registration.

We publish details of any actions we take, or the childminder or childcare provider takes to bring about compliance with requirements on our website for a period of five years commencing on the date we complete our investigation.

For further information please read [Ofsted's Enforcement Policy](#).
